Purok II, Catungan Ist, Sibalom, Antique, Philippines

CAREER OBJECTIVE

AI Automation Engineer and Full-Stack Developer with experience in AI-powered workflows, API integrations, webhooks, automation systems, and full-stack application development. Skilled in n8n, Claude, ChatGPT, React, Node.js, Supabase, and PostgreSQL. Passionate about leveraging AI and automation to streamline operations, improve efficiency, and solve complex technical challenges.

EDUCATION AND AWARDS

BS Information Technology, University Of Antique 2020 - 2024

- Awarded Programmer of the Year

Master In Information Technology, West Visayas State University 2024 - Present

CERTIFICATIONS

N8N101 - Essentials: Your First Workflows June 2026

N8N102 - Integrations: APIs And Connected Workflows June 2026

RELEVANT EXPERIENCE

Freelance AI Automation Specialist & Full-Stack Developer 2024 - Present

- Designed and implemented AI-powered automation workflows using Claude, ChatGPT, n8n, APIs, and webhooks to automate business processes and improve operational efficiency.
- Developed cross-platform web and mobile applications using React, React Native, Node.js, Supabase, and Vercel
- Built and integrated RESTful APIs and managed PostgreSQL databases via Supabase, including authentication and real-time features
- Built production-ready mobile applications for iOS and Android with offline-capable workflows, API integrations, and responsive user experiences

UI/UX Designer | Design Analyst, Enfinity.Co May 2025 – June 2026

- Designed end-to-end fintech web and mobile interfaces using user-centered design principles
- Conducted user research and translated insights into wireframes and high-fidelity UI designs
- Collaborated with developers to ensure accurate implementation of designs
- Improved user experience through optimized user flows and interface consistency

SAMPLE PROJECTS

YouTube Channel Discovery Automation March 2026

- Automated data pipeline from keyword input to structured output in Google Sheets
- Built an automated system to discover and track YouTube channels using keyword-based search
- Reduced API quota usage by 90 percent through batch data processing

Technologies: n8n, YouTube Data API v3, JavaScript, Google Sheets

Automated UGC Video Generator From Google Sheets March 2026

- Built an end-to-end automation pipeline that transforms product listings into UGC-style videos, fully hands-off
- Integrated DALL-E 3 image generation with GPT-4 Vision analysis to ensure visual continuity between generated assets and video scripts
- Implemented async video generation with Sora API including a polling loop with 30-second intervals and a 20-minute timeout safety mechanism

Technologies: n8n, OpenAI API (DALL-E 3, GPT-4 Vision), Sora API, JavaScript, Google Sheets, Google Drive API

AI Clinic Receptionist Chatbot April 2026

- Developed an AI-powered clinic receptionist chatbot using n8n, LLM agents, REST webhooks, and Google Sheets integration.
- Built an end-to-end workflow that handles patient inquiries, appointment requests, and booking data collection.
- Implemented prompt-engineered guardrails to ensure the AI assistant remained within approved healthcare support boundaries and avoided providing medical advice.

Technologies: n8n, Claude/OpenAI, JavaScript, REST APIs, Webhooks, Google Sheets API, HTML/CSS

ADDITIONAL SKILLS & INTERESTS

UI/UX Design: User Research, Wireframing, Prototyping, User Flows, Design Systems

Frontend Development: HTML, CSS, JavaScript, React

Backend Development: PHP, MySQL, RESTful APIs

Automation & Tools: Claude, Claude Code, ChatGPT, n8n, Postman, Supabase, Vercel, Workflow Automation, API Integrations
